# A family business

## on the road to success

Since its entrepreneurial independence in 2000, DINGES Logistics has been developing rapidly. Starting off with just one truck, our company now consists of over 100 tractor units. Our success is built on constant commitment and the steady motivation to keep improving. In 2019, we extended our management board in order to meet our strategic requirements in the future.

### One Stop Solution

From 2016 on, we merged all marketing activities of each of our individual companies into DINGES Logistics. Now, “DINGES Logistics” represents “Ingo Dinges International Tanktransport e. K.” as well as “IDT GmbH” and the container terminal inaugurated in 2020, which was the last step to establish our philosophy of “One Stop Solution”.

# A strong partner

## partner in transport & logistics

### 2000

Independent professional driver Ingo Dinges lays the foundation for DINGES Logistics. Hiring of the first additional driver.

### 2002

Repair workshop expansion. Obtained permit for the transport of waste.

### 2013

Start of construction for our tank cleaning station. We relocated to our new premises in Grünstadt.

### 2014

Obtained DIN ISO 9001:2008 and SQAS certification.

A lot has changed within the past 20 years. As a customer-oriented logistics and transport partner, we have continuously developed and consistently invested in the expansion and modernization of our company. We are able to face the challenges of the future. Today, DINGES is successfully active throughout Europe.

## 2016

Obtained GMP+ certification.  
Inauguration of our tank cleaning station.

## 2017

Restructuring our corporate identity by introducing the DINGES Logistics brand which now incorporates Ingo Dinges International Transports e. K. and IDT GmbH.

## 2018

Enhancing our office space by 400 sqm.

## 2019

Introducing Mr Zöffel and Mr Klopp as Chief Operating Officer to our executive board.  
Extending our tank cleaning plant by three lanes. Inaugurating our branch in Dorsten.

## 2020

Inaugurating our container terminal.

# A versatile range of services

## You can count on us

Industry experience, modern equipment and a competent team has been form the basis of our dynamic growth over the past 20 years. We adapt to the wishes of our customers with tailor-made solutions. Our portfolio is broadly diversified and covers all fields of activities in the areas of transportation, tankcleaning and workshop services as well as an own container terminal with hazardous and cargo storage. Whatever services you want we may provide to you: promises made and deadlines are met by us. You can rely on us for about 20 years!

## Facts & Figures at a glance

- › 200 employees
- › 17.000 sm logistics area in Grünstadt
- › 6.000 sm logistics area in Dorsten
- › 9.000 sm external storage
- › 110 trucks
- › 100 tankcontainer chassis / tipping chassis
- › 180 chemical tanks
- › 450 tankcontainers

### One Stop Solution

- › Special equipment for the industry
- › Own certified workshop
- › Own tankcleaning station
- › Container terminal
- › Heating places with hot water, steam and electricity

# Your competent partner for logistics services

Ingo Dinges International Tanktransport e. K. is your specialized provider for transport and logistic solutions in the area of chemical transport and petrochemicals, for both hazardous and non-hazardous transportation (as well as GMP certified and waste transport management). We gladly adapt ourselves to the specific requirements of our customers and take care of a timely, safe and professional transportation of your cargo. For this purpose, modern special equipment is ready in place. Our customers benefit from direct decision-making, efficient communications and telematics systems as well as a fast, economical and reliable full service from one source.

Mit Aral und BP  
profitieren Sie und Ihre  
Fahrer in ganz Europa  
von einem leistungs-  
starken Partner.

Alles super.

# Our fleet offers tailor-made solutions

As a long-standing industry partner, we are well acquainted with the legal regulations and requirements. This includes not only optimal driving and rest times but also the avoidance of capacity bottlenecks at loading points. We are happy to adapt to the specific, individual requirements of our clients. Due to our high level of specialization, e.g. by using 1- to 8-compartment tankers, we are able to carry out customer-specific modifications and offer solutions in the partial load range or for small quantities. We would be pleased to inform and advise you!

**Transport is your passion,  
real-time data ours ...**

Wir danken Dinges Logistics  
für das Vertrauen und die  
langjährige Zusammenarbeit.

## Tankcontainer

- › 20“ tankcontainer made of stainless steel (VA)
  - › selected range from 20 cbm to 26 cbm
  - › optional with or without baffles
- › Swap Body tankcontainer made of stainless steel (VA)
  - › size from 30 cbm to 35 cbm
  - › standard equipped with baffles and ground-operated
- › Rubberized tankcontainer
  - › with Chemoline 8 and HAW 08 lining
  - › selected range from 20 cbm to 26 cbm (optional with or without baffles)

## Convincing performance

Our tankcontainer fleet can be used for the safe, accompanied or unaccompanied transport of liquid goods trimodally by road (truck), rail (intermodal) and water (barge/vessel). In addition to different modes of transport, we also offer our customers a storage option in our container depot with class 3, 6, 8 and 9 hazardous materials storage.

Thanks to the flexibility and diversity of our equipment and the skills of our employees, we can provide our customers with comprehensive services within the supply chain. In addition, special features and optional equipment, such as the installation of a TODO drybreak coupling or a stakepipe coupling, can be provided by our specialist workshop according to individual customer specifications.

# Extensive workshop services

## Tailor-made solutions

DINGES has a modern, well-equipped workshop, which is happy to offer its services publicly to all customers. A highly specialized, well-trained team of experienced mechanics works here, covering the complete portfolio of repair, maintenance and overhaul on trucks, tankers, trailers and tankcontainers. All workshop services are provided from one source. In addition, we offer our customers a guaranteed 24-hour emergency service including mobile workshop vehicles with their own compressor. A comprehensive pick-up and delivery service completes the portfolio!

### Your benefits package at a glance

- › services of a qualified master craftsman
- › all maintenance, repair and overhaul services
- › well-equipped workshop with the most modern equipment
- › experienced workshop team consisting of competent mechanics
- › as a recognized TÜV base, we offer the adequate preparation of all activities for TÜV acceptance in our company
- › approved partner of BUREAU VERITAS
- › authorization to test trailers and tankcontainers

# Specialist for tankcleaning

## Quality at the highest level

Thanks to our extensive experience in haulage and transportation, we are very well familiar with the requirements a modern tank cleaning plant poses. While markets grow and become faster and faster, quality and flexibility play an increasingly crucial role. Full service logistic solutions are the key to customer satisfaction. We have one of the most modern tank cleaning stations in Europe, EDP-supported and certified according to the guidelines of EFTCO, SQAS and DVTI. We are able to clean nearly the entire product range of the chemical industry including special requirements, such as kosher and inerting.

**Transport, cleaning, workshop, storage:**

**at Dinges Logistics you receive all services from a single source.**

# A safe performance

This is what our certifications stand for

We set the bar high for the quality of our services. For this reason, we also have all the relevant licences and insurance policies required by German and European law to provide our services. Along the entire process chain, continuous monitoring and external controls take place in order to fulfil the requirements of the necessary certifications according to SQAS, GMP+, AJA Europe or ISO 9001. We guarantee the highest safety and quality standards for our customers.

**Do you have any questions about our broad portfolio? Then simply get in touch. We are glad to answer your questions at any time because your personal advice and customer care are important to us.**

## **ISO certified**

Our quality management system complies with the ISO 9001 standards.

## **SQAS certified**

We meet the standards of the safety and quality assessment system of the European Chemical Industry Council.

## **GMP+ certified**

Food security is our top priority. We guarantee a safe transport of feed according to GMP+ standard.
